A message from the Director

It's hard to believe a whole year has gone by since the start of the pandemic. You've rallied behind your community, adjusted everyday business practices to safely serve customers and made sacrifices to keep everyone safe. We've also made our own adjustments, utilizing staff

in new ways and enhancing our use of technology to support your business in these unprecedented times.

We are pleased to share some good news. Sales are strong, up 25.4% for the first half of the fiscal year, July through January, compared to the same period the prior year. That means increased commissions and other benefits for you. Numbers games, scratch-offs, EZPLAY® Games and *Keno* are all seeing sustained growth. Portable, convenient and fun, our games are providing a break from the everyday.

As we look towards spring, we have a number of new offerings to share. The first is the debut of \$10 *Money Multiplier* with our March 30 scratch-off release. The latest Gigantix ticket offers five games to play on a single ticket and prize multipliers too, a player favorite.

If you're new to selling these supersized games, we encourage you to give this game a try. Your sales representative would be happy to provide you with a game dispenser. Overall, we've found that higher-priced games like the upcoming \$10 game are attractive to customers and boost retailer sales.

For retailers who excel with *Keno* and other social games, we're happy to announce a new promotion, *Keno Clutch 3*, as college basketball tournament season reaches its peak. The promotion provides customers with a free, \$1 three-spot play good for three consecutive drawings, with a \$20 single-ticket *Keno* purchase. The promotion starts March 19 and runs on select tournament games days from noon to midnight. See page 8 to learn more.

March is Problem Gambling Awareness Month. The Ohio Lottery and the lottery industry as a whole use this time to re-enforce strategies for healthy play, educating retailers and customers about the support systems available to help when gambling causes problems and is no longer fun.

See page 7 to learn more. Take a few minutes to share the information with employees and post these tips to keep the experience of Ohio Lottery game play fun.

We've come so far throughout the pandemic. We've done that by working together, making adjustments and helping each other as we seek a path to a healthy, happy and more prosperous future. Thank you for your ongoing support.

Sincerely,

Pat McDonald, Executive Director
The Ohio Lottery

Taking Care of Business: Equipment issues

Lottery machine down? Give us the details to get you up and running faster. When calling the Intralot hotline, be sure to take the time to describe the problem you're having.

“We want to get you up and running as quickly as possible. The more information you can share, the better prepared our tech staff can be to fix any equipment or technology issue,” says Carla Kuchta, Deputy General Manager, Intralot Ohio. “Our techs need to come with the right parts for the right machine and we need to know how much time to dedicate to the job.”

A long line or high jackpot can make issues like these especially stressful for retailers. That makes it even more important to provide enough information to help the Intralot Technical Call Center staff on the other end of the call. They may ask you a few questions to get to the root of the problem, so your business gets back on track.
